Contents

NUMBER 1, MARCH

C. L. Fergusson, R. A. F. Cas and I. R. Stewart: Ordovician turbidites of the Hotham Group, eastern Victoria: Sedimentation in deep-marine channel-levee complexes 1

R. J. Korsch, P. E. O'Brien, M. J. Sexton, K. D. Wake-Dyster and A. T. Wells: Development of Mesozoic transtensional basins in easternmost Australia 13

C. R. Fielding: A tide- and wave-moulded shelf sequence from the Permian of the southwest Bowen Basin, Queensland, Australia 29

N. J. Grobler, W. A. van der Westhuizen and E. A. W. Tordiffe: The Sodium Group, South Africa: Reference section for Late Archaean–Early Proterozoic cratonic cover sequences 41

C. P. Rao: Geochemistry of the Gordon Limestone (Ordovician), Mole Creek, Tasmania 65

A. V. Arakel, G. Jacobson, M. Salehi and C. M. Hill: Silicification of calcrete in palaeodrainage basins of the Australian arid zone 73

N. I. Fisher and C. McA. Powell: Statistical analysis of two-dimensional palaeocurrent data: Methods and examples 91

H. M. J. Stagg, J. B. Willcox and D. J. L. Needham: Werner deconvolution of magnetic data: Theoretical models and application to the Great Australian Bight 109

L. R. Rankin, A. R. Martin and A. J. Parker: Early Proterozoic history of the Karari Fault Zone, northwest Gawler Craton, South Australia 123

P. W. Haines: Geological Note: Probable impact structure near Barrow Creek, Northern Territory 135

D. Cherry: Geological Note: The palaeogeographic significance of a Late Devonian Lambie Group clast in the Late Carboniferous Currabubula Formation, New South Wales 139

J. C. Aitchison: Discussion: Radiolarian and conodont biostratigraphy of siliceous rocks from the New England Fold Belt 141

H. Ishiga and E. C. Leitch: Reply to Discussion: Radiolarian and conodont biostratigraphy of siliceous rocks from the New England Fold Belt 142

M. J. Irwin: Discussion: Discovery of thrust klippen, northwest of Mary Kathleen, Mount Isa Inlier, Australia 145

R. J. H. Loosveld: Reply to Discussion: Discovery of thrust klippen, northwest of Mary Kathleen, Mount Isa Inlier, Australia 147

NUMBER 2, JUNE

G. P. L Walker: Gravitational (density) controls on volcanism, magma chambers and intrusions 149

K. Orth, R. A. F. Cas and J. V. Wright: Facies analysis and facies associations in the recognition of volcanic centres in silicic terranes: An example from the Early Devonian of Australia 167

R. F. Berry: The history of movement on the Henty Fault Zone, western Tasmania: An analysis of fault striations 189

M. Ahmad: Fluid inclusion study of greisens associated with the Nicholson Granite Complex, Murphy Inlier, Northern Territory 207

K. Stüwe, H-M. Braun and H. Peer: Geology and structure of the Larsemann Hills area, Prydz Bay, East Antarctica 219

P. G. Lennox and S. D. Golding: Quartz veining in simply folded arenites, Cape Liptrap, southeast Victoria, Australia 243

T. R. Charlton: Stratigraphic correlation across an arc-continent collision zone: Timor and the Australian Northwest Shelf 263

E. C. Leitch and J. P. Feenan: Quartz–kaolinite rocks from northeastern New South Wales: Distal products of a pluton-driven hydrothermal system 275

P. R. Williams: Nature and timing of early extensional structures in the Mitakoodi Quartzite, Mount Isa Inlier, northwest Queensland 283

P. A. Cawood and R. H. Flood: Geochemical character and tectonic significance of Early Devonian keratophyres in the New England Fold Belt, eastern Australia 297

R. I. Hill and I. H. Campbell: Geological Note: A post-metamorphic age for gold mineralization at Lady Bountiful, Yilgarn Block, Western Australia 313

Corrigenda 317

NUMBER 3, SEPTEMBER

G. I. Johnson, J. A. Cooper and D. F. Blight: The geology and geochronology of a Proterozoic trachyandesite plug, Murchison Province, Yilgarn Block, Western Australia 319

T. R. Farrell and R. Offler: Greenschist facies metamorphism of a rift basin sequence, Breadalbane, NSW 337

S. J. Fitzsimons and E. A. Colhoun: Pleistocene clastic dykes in the King Valley, western Tasmania 351

P. J. Hill and G. Jacobson: Structure and evolution of Nauru Island, central Pacific Ocean 365

P. R. Williams, B. W. Nisbet and M. A. Etheridge: Shear zones, gold mineralization and structural history in the Leonora district, Eastern Goldfields Province, Western Australia 383

A. J. Stewart: Extensional faulting as the explanation for the Deighton 'Klippe' and other Mount Albert Group outliers, Mount Isa Inlier, northwestern Queensland 405

C. G. Murray, E. Scheibner and R. N. Walker: Regional geological interpretation of a digital coloured residual Bouguer gravity image of eastern Australia with a wavelength cut-off of 250 km 423

T. J. Fowler: Superposed folding in the Rockley district, Lachlan Fold Belt, New South Wales 451

C. R. Fielding: Geological Note: Hummocky cross-stratification from the Boxvale Sandstone Member in the northern Surat Basin, Queensland 469

G. I. Johnson and J. A. Cooper: Geological Note: Rb-Sr whole-rock and mineral dating of Gilgarna Rock syenite, Yilgarn Block, Western Australia 472

D. Seward and R. J. Korsch: Geological Note: Fission track dating of alluvial zircons from the Inverell sapphire field, New England Orogen 475

Corrigendum 478

NUMBER 4, DECEMBER

M. P. Stubley: Structural analysis of the Mystery Bay area, New South Wales 479

D. C. Arne, P. F. Greene, I. R. Duddy, A. J. W. Gleadow, I. B. Lambert and J. F. Lovering: Regional thermal history of the Lennard Shelf, Canning Basin, from apatite fission track analysis: Implications for the formation of Pb-Zn ore deposits 495

K. C. Hill and A. J. W. Gleadow: Uplift and thermal history of the Papuan Fold Belt, Papua New Guinea: Apatite Fission Track Analysis 515

D. R. Nelson, L. P. Black and M. T. McCulloch: Nd-Pb isotopic characteristics of the Mordor Complex, Northern Territory: Mid-Proterozoic potassic magmatism from an enriched mantle source 541

C. V. Murray-Wallace and R. W. L. Kimber: Quaternary marine aminostratigraphy: Perth Basin, Western Australia 553

S. W. Bull and R. A. F. Cas: Volcanic influences in a storm- and tide-dominated shallow marine depositional system: the Late Permian Broughton Formation, southern Sydney Basin, Kiama, NSW 569

M. W. Wallace, V. A. Gostin and R. R. Keays: Geological Note: Discovery of the Acraman impact ejecta blanket in the Officer Basin and its stratigraphic significance 585

R. A. Glen and J. Beckett: Geological Note: Thin-skinned tectonics in the Hunter Coalfield of New South Wales 589

I. H. Wilson: Discussion: Early proterozoic history of the Karari Fault Zone, northwest Gawler Craton, South Australia 595

L. R. Rankin, A. R. Martin and A. J. Parker: Reply to discussion: Early Proterozoic history of the Karari Fault Zone, northwest Gawler Craton, South Australia 596
